

Drawer cabinets

The ultimate in organised storage for tools, fixings and components, cubio drawer cabinets are available in an array of housing and drawer dimensions.

Each drawer can be individually configured with a range of divider options, and each compartment professionally labelled.

The durable two-colour housing has a UDL capacity of 1 tonne. Drawer blocking mechanisms and high drawer load capacities come as standard

key features

- Ergonomic reach-through handle makes low drawers easier to open without stretching
- Blocking mechanism as standard – only one drawer can be pulled out at a time
- Labelling strips with easy-open transparent cover. A template for consistent labelling is downloadable from www.bott-group.com
- High strength drawer pan accepts a wide range of dividers, adjustable on a 25mm pitch grid
- Wide range of drawer dividing accessories available
- 100kg UDL 93% extension drawer guides as standard for high load bearing capacity
- Cupboard doors are double-walled for high strength; interior wall is Perfo® panelled as standard to maximise storage space
- High quality lock, optional master key system
- Electronic remote central locking available, with optional master key system, page 35

Tough, tear-resistant polymer
2.5mm thick, exact fit to drawer inner

remote locking options are available (see page 35)

the remote locking system

A choice of two remote locking options

- Remote locking *standard* provides security and convenience and is offered with optional Master Key functionality
- Remote locking *plus* is an advanced system that offers full traceability, and enables users to specify the time of day during which access is permitted to specified cabinets. It is also required if a Master Key system is required for 10 or more cubio cabinets.

remote locking *standard*

- Unlock with a single keypress of the Transponder Key
- Lock reverts to 'locked' position after 10 seconds for added security
- Locking system comprises an Electronic Standard Lock and a Transponder Key
- A Programming Transponder converts any Transponder Key into a Master Key
