

Cupboards

Cubio cupboards have a huge capacity and are available in two types. Standard duty storage cupboards are designed to allow organised storage of parts and tools in a range of plastic bins on adjustable shelves. Heavy duty cupboards have a housing that can withstand a massive 1.5 tonne UDL, and are available with a range of options, including integral drawers, worktops and Perfo® and louvre panels.

key features

Standard duty Cupboards

- Galvanised steel shelves with load capacity 75Kg UDL
- Shelves adjustable on a 25mm pitch
- Fully lockable

Heavy duty cupboards

- Double wall hinged doors with interior Perfo[®] or louvre panel
- High-quality three-point concealed locking mechanism
- Optional master key system and electronic remote locking system
- Robust hinge design that allows drawers to be pulled out even at an opening angle of 90°
- Window door and roller shutter options available
- Perfo[®] and louvre back panels available
- Solid side mounting profiles with hole pattern in 25-mm system grid for mounting shelves and drawers
- Galvanised steel shelves with load capacity 100Kg UDL, adjustable on a 25mm pitch
- High strength drawer pan accepts a wide range of dividers, adjustable on a 25mm pitch grid
- Please note: all cupboards should be fixed to walls or floor for safety
