mobile shelving systems

# META MULTIBLOC® mobile shelving systems ...

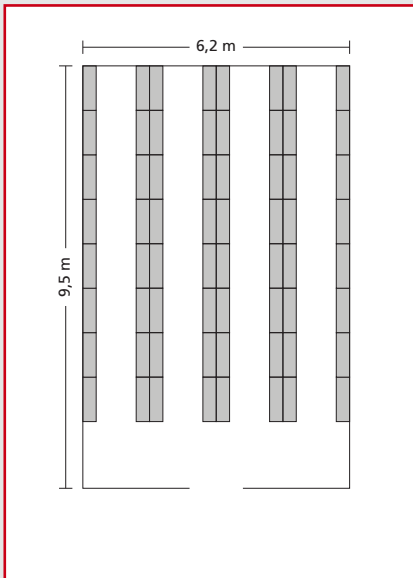

Where there is a shortage of storage bins or new area is to be gained, the mobile META MULTIBLOC® shelving system is ideal for an improvement concept.

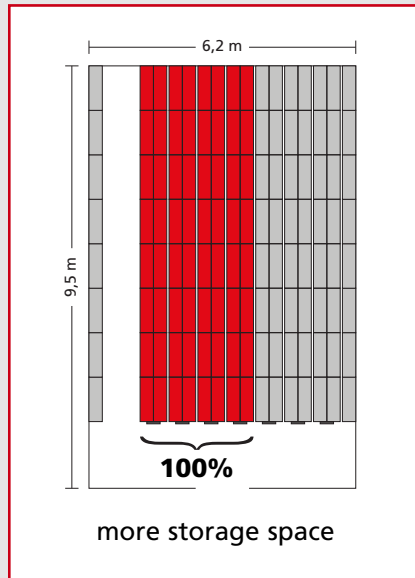

In many logistics areas goods are rarely accessed as it is the case in archives or with the storage tyres and rims. Here very often storage bins are only limited. In these cases

you increase the profitability of your warehouse with META MULTIBLOC® shelving systems.

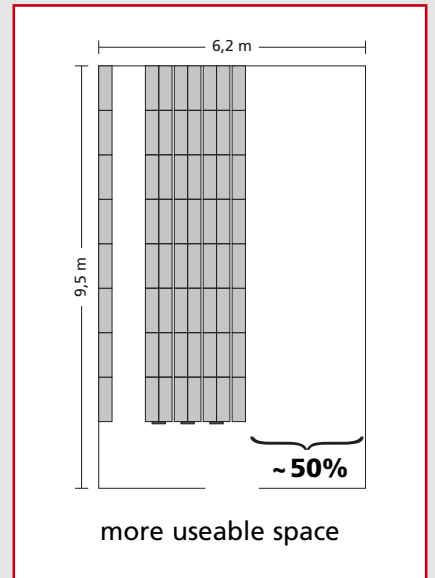

**You could create 100% additional storage capacity in your existing warehouse. Alternatively the space for existing goods can be reduced up to 50% of the previous space.**

Conventional shelving system
