

Cycle Compounds

A stylish compound with facilities to house up to 48 bikes. Fitted with a curved roof, made from UV resistant opaque polycarbonate panels and optional central canopy for extra security and weather protection.

- Covered shelter for minimum of 16 bikes - larger sizes available to accommodate higher numbers
- Attractive gate with hasp to take padlock
- Side panels made from tough clear perspex
- Optional central security canopy
- Comes complete with twin level bike racks
- All metal parts powder coated for improved weather resistance
- Must be bolted to 250mm thick concrete (fixings included)
- Delivered in knock-down form

If sited within 5 miles of the coast, we strongly recommend an additional weather treatment for the steel work. This is available for a modest additional charge.

Traditional Cycle Shelters

These shelters provide storage and security with a screened appearance for landscaped sites. Selected shelters can also be used for mixed parking of both cycles and motorcycles by fitting bike racks in one section. See pages 35 - 42 for our full bike rack range.

- Robust all-weather construction
- Choice of galvanised or powder coated sheet steel side & back panels
- Adjustable feet for on-site positioning
- Parabolts for surface mounting included. Must be bolted to 250mm thick concrete for stability
- Site survey and erection service available
- Perforated panels are supplied light grey as standard
- Cycle racks sold separately - see p.35

Wall Mounted Cycle Shelter

A cost effective means of storing up to 8 bikes under cover, without the need for extensive ground works. Apart from the two front supporting legs, all parts mount to a suitable brick or stone wall.

- Robust all-weather construction
- Comes complete with twin-level bike rack for storing up to 8 bikes
- Supplied in kit form with easy to follow instructions for onsite assembly and installation
- Parabolts for front support legs included. Must be bolted to 250mm thick concrete (wall fixings not included)

Round-A-Tree Bike Racks

These innovative cycle racks permit the creation of bike parking areas in unusual places, such as round a tree or pole. The larger racks are circular, while the smaller ones are square. Both styles are supplied in 2 halves for easy assembly.

- Available in different sizes to provide parking for up to 24 bikes
- Easy access for cyclists from all directions
- Welded construction, made in 2 halves with simple instructions

- All racks mount to the ground not the tree
- Can also be fitted round poles, bollards and posts
- Constructed from mild steel, powder coated exterior grade black

Indoor Vertical Bike Racks

This range of Vertical Bike Racks have an innovative and patented mounting hoop that secures the bike in a vertical position. This saves 35-45% of the floor space required if bikes are stored horizontally and avoids the common problem of bikes leaning against each other.

Vertical Bike Wall Loop

- Simple cost effective means of storing one bike vertically
- Patented hoop mechanism holds bike securely in place
- Clothes hook and chain included (padlock not included)
- Simple self assembly required
- Saves floor space
- Supplied with wall fixings

Vertical Bike Wall Loop

Code	Price
SRAWALLHOOPS	£88.00

Single Sided Vertical Bike Rack

- Simple cost effective means of storing one bike vertically
- Patented hoop mechanism holds bike securely in place
- Ramp to ensure rear mudguard does not touch ground
- Simple self assembly required
- Saves floor space
- Supplied with rawl bolts to fix to ground

Single Sided Vertical Bike Rack

Code	Price
SRAVERTRACKS	£183.00

Double Sided Vertical Bike Rack

- Simple cost effective means of storing two bikes vertically
- Patented hoop mechanism holds bike securely in place
- Ramp to ensure rear mudguard does not touch ground
- Simple self assembly required
- Saves floor space
- Supplied with rawl bolts to fix to ground

Double Sided Vertical Bike Rack

Code	Price
SRAVERTRACKD	£245.00

QUICK AND EASY OPERATION

- 1 Ensure wheel-mounting hoop is at top of runner, apply rear brake and pull handlebars back until bike is vertical
- 2 Free-wheel bike forwards. When bike meets wall, wheel hoop slides down over front wheel to hold bike
- 3 Secure bike with chain provided (dependant on model)

Vertical Bike Lockers

Vertical Bike Lockers are a revolutionary new way of storing bikes securely. They come with an innovative patented mounting hoop that allows the bike to be parked upright. As the bike is vertical, 35-45% of floor space is saved compared with horizontal cycle storage.

Bike Lockers provide space and security not only for your bike but for your cycle clothing, helmet and luggage as well.

- Innovative space saving design that stores the bike vertically on its rear wheel
- Fitted with a patented mounting hoop that uses gravity to hold the bike upright
- Completely encloses the bike protecting it from thieves, vandals, the weather and bird strikes
- Manufactured to the Quality Cycle Locker Standard devised by the Bike Parking and Security Association (BPSA) to meet planning application requirements

- Constructed from heavy duty galvanised steel, powder coated green. Other colours available on request, subject to minimum order requirements
- Comes with disc padlock and three 10mm bolts for mounting into concrete
- Space to store a helmet and cycle gear inside

Outdoor Vertical Bike Locker

Size H.W(Front)W(Back)D.	Code	Price
1830.715.405.1145	SRAVERTLOCKR	£850.00

QUICK AND EASY OPERATION

- 1 On approach, ensure wheel-mounting hoop is at top of runner. Apply rear brake and pull handle bars back until bike is vertical. Free-wheel bike into locker
- 2 When bike meets back of locker, wheel hoop slides down over front wheel to hold bike
- 3 Close locker door and lock with padlock provided

Lockers can be lined up against a wall or positioned nose to tail for maximum use of available floor space

The Bike Parking & Security Association (BPSA) was set up by the Department of Transport to devise standards of cycle parking. To conform to the BPSA Quality Cycle Locker Standard, a locker must:

- Be easy and convenient to use
- Be easy to clean and maintain
- Protect the cycle by fully enclosing it
- Not cause damage to the bike, user or others
- Protect the cycle from extreme weather
- Resist forced entry for minimum of 2 minutes
- Withstand vandalism including kicking
- Accommodate 90% of bike designs

Character Bike Racks

Add some character to your cycle parking with this attractive and innovative range of bike stands. Each rack provides safe parking for cycles as it allows the cycle frame and wheel to be padlocked through the rack. In addition, a choice of novel designs allow you to make a feature of your cycle parking area - choose from Chipmunks, Dolphins, Squirrels, Rockets, Cogs and Cranks. Alternatively, you can design your own rack to match your organisation's image.

"Squirrel" Bike Rack

- A bike stand for 1 or 2 bikes in the shape of a squirrel
- Made from tough 8mm thick steel
- Powder coated black for scratch and weather resistance
- Supplied with four fixing bolts for mounting onto concrete

Squirrel Bike Rack

Size H.W.	Code	Price
845.1020	SQSQU84210AX	£225.00
