Germ Guard paint will last the life-time of the locker or cupboard on which it is used.

## Multi Compartment Lockers

These lockers give alternatives to usual locker formats. From lockers offering storage for both clean and dirty apparel and full height twin lockers, to staff and duo lockers that provide multiple storage compartments within the locker for each individual.

- Strengthened and ventilated doors with rubber buffers
- Powder coated with Germ Guard Active Technology anti-bacterial paint

### A Staff Lockers

- Provides hanging clothes storage on one side of the central divider and 3 shelves for smaller personal items such as books on the other side

### B Clean & Dirty Lockers

- Ideal for separating clean from dirty garments, indoor from outdoor clothes or wet from dry garments

### C Twin Lockers

- Storage space for two people using less floor space than standard lockers
- Two slim full height compartments for clothing and personal effects

### D Duo Lockers

- Provides locker space for two people
- Each person has a full width top compartment for personal belongings and a tall hanging space for clothes

## Wet Area Lockers

These lockers are manufactured from pre-coated galvanised steel for damp environments or where frequent washing down is required.

- Ideal for swimming pools, changing rooms, saunas, industrial wet areas and food preparation plants
- 2, 3 and 4 door lockers fitted with security shelf to prevent unauthorised access to the compartment below
- Moisture resistant cam locks are fitted as standard for superior lock durability in moist environments
- Strengthened and ventilated doors with rubber buffers
- Single tier lockers fitted with top shelf and coat hook
- Two tier lockers fitted with coat hook in each compartment
- Powder coated with Germ Guard Active Technology anti-bacterial paint

## Heavy Duty Lockers

A really heavy duty, all-steel locker made to withstand even the toughest environments. We use thicker steel throughout, as well as tougher hinges and a very robust lock.

- Carcass is made from 70% thicker steel than a standard carcass for added stability and rigidity
- Door is made from steel nearly three times thicker than a standard door to prevent forced entry
- Security shelf that prevents unauthorised access to the compartment below is over 70% thicker than a standard shelf
- Fitted with 5 knuckle hinges and heavy duty camlock for added security
- Can be made from zintec steel for wet area applications if required
- Powder coated with Germ Guard Active Technology anti-bacterial paint

Heavy duty, moisture resistant cam locks

## Laminate Door Lockers

Heavy duty lockers without the heavy-weight price. As the door is normally the part of the locker that comes in for the most punishment, we have replaced our usual steel door with one made from laminate. This fits neatly inside the locker frame and opens a full 180 degrees.

- Tough, solid laminate doors that are highly resistant to dents and scratches and will not rust
- Doors open a full 180 degrees for easy access to each compartment
- Available with a mild steel carcass for dry areas, or galvanised steel for wet areas, such as swimming pool changing rooms
- Dry area lockers fitted with standard camlocks; wet area lockers supplied with moisture-resistant camlocks
- 2 sizes and 4 door configurations
- 2, 3, and 4 door lockers fitted with security shelf to prevent unauthorised access to the compartment below
- Choice of 4 standard door colours, with others available on request. All doors are mounted to a light grey carcass
- End panels also available
- Pre-drilled for nesting

**Germ Guard**  
Active Technology

Germ Guard is a special anti-bacterial paint designed to help improve the hygiene of frequently used storage containers such as lockers and cupboards.

Germ Guard reduces the risk of cross-contamination, and is proven to reduce the spread of **Escherichia coli (E.coli)** and **Methicillin resistant Staphylococcus Aureus (MRSA)**.

Germ Guard paint will last the life-time of the locker or cupboard on which it is used.

## Charging Laptop Lockers

This range of cost effective laptop storage units is designed to provide secure charging facilities for laptop computers.

- Each compartment is equipped with a 3 pin plug socket to permit charging using each laptop's own mains lead
- Ventilated compartments for dissipation of heat
- Powder coated with Germ Guard anti-bacterial paint with a choice of 3 door colours
- Compartment aperture size (H x W x D)  
100mm x 375mm x 470mm

### Special Locker Colours and Finishes

Locker doors come in up to six attractive gloss colours as standard with no additional charge or minimum order requirements. To personalise the locker, perhaps to match corporate colours or to be in keeping with an organisation's logo, you can choose from a wide variety of other colours and finishes. Most RAL colours can be applied to the locker door or carcass or both. As well as gloss, there are also matt and metallic finishes - all of which are subject to a modest additional charge and minimum order requirement.

Please call our sales office for details of prices, quantities and lead times.
