If it doesn't say Linbin® it's not the Tough Original!

Order Linbins and you get a better bin. It's the original and it's still the best. It comes in a bigger range of sizes, it's stronger and lasts far longer - so we guarantee it for life!

Is there an industry in the world not using Linbins?

Linbins solve so many storage problems so well, no wonder they're used in every industry imaginable.

You can stack them, and they won't distort. You can attach them to our louvre panels, where they stay put, even when fully loaded.

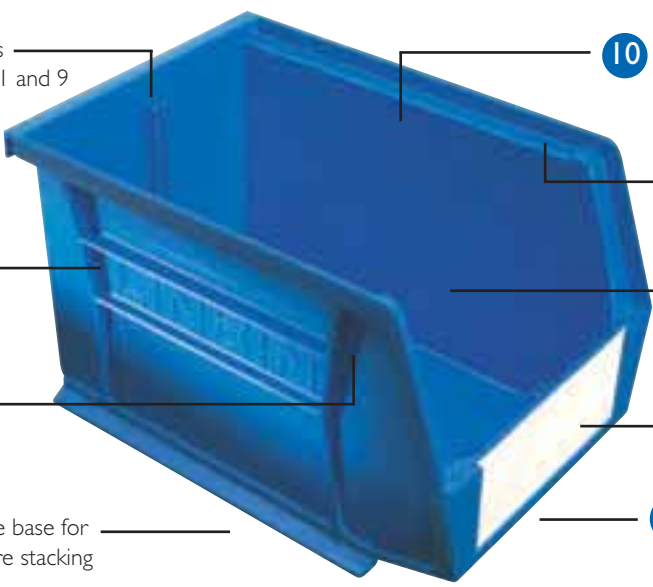

There are ten different sizes to choose from – all available in four bright colours, Clearview or our economical grey.

One quality  
- two price ranges

Coloured Linbins are great for identifying products or simply brightening up your storage. However, if you'd rather have Linbin quality at the lowest possible price, our grey Linbins are your ideal choice.

## Ten reasons why you're better off with a Linbin

- 
- 1 Divider slots except size 1 and 9
  - 2 Deep back lip fits securely onto louvre panel
  - 3 Your logo in corporate colours (minimum order)
  - 4 Incredibly strong girder type moulding to provide extra stacking strength
  - 5 Wide base for secure stacking
  - 6 Toughest material available – high strength polypropylene co-polymer
  - 7 Wide identification label supplied free with every Linbin
  - 8 Smooth interior with curved edges for easy cleaning and product picking
  - 9 Wide top lip and locator for secure stacking
  - 10 Largest range – 10 sizes and 6 colours

Order now! the best bins in the world with the lifetime guarantee!

## Ten sizes in four bright colours

Choose different colours for faster product identification

- The toughest bin available
- Guaranteed for life
- Reinforcing ribs – stack without distortion
- Full width lip – secure fixing to louvre panel

with our economical  
grey Linbins  
on PAGE 11

## Why are grey Linbins more economical?

- Same top quality
- Same unique design
- Same high strength
- Guaranteed for life

Grey Linbins are exactly the same as coloured Linbins. They're just as strong because they're made to the same design, on the same moulds, using the same high-strength polypropylene co-polymer. So why do they cost up to 25% less than coloured Linbins?

Simple – we save on colour pigment and since over 60% of our sales are grey Linbins, we produce larger batch quantities and pass the savings on to you.

## LINBINS – SETTING THE STANDARDS FOR INDUSTRY

### How many Linbins do you need?

If you're using Linbins on our louvre panels there's a quick way to calculate how many Linbins you'll need. You can work it out once you've chosen your panels.

On page 14 you'll find all the wall mounted louvre panels and the quick calculation guide.

Bin Cards  
included free  
with all Linbins

## Save up to 25% on Grey Linbins

## Ideal for environments where hygiene is paramount

- Hospitals
- Laboratories
- Food industry
- Research Departments
- Colleges

## Clearview Linbins

- Available in four sizes as standard
- Lightweight
- Smooth easy-clean finish
- Durable
- See stock levels at a glance
- Fully compatible with standard Linbins

The dimensions are exactly the same as the successful colour and grey Linbin Range, therefore you can implement these Linbins into an existing environment of small parts storage using standard louvre panels.

## Clearview Linbins fit our Louvre Panels

Refer to LBU calculator on page 14 to determine how many Linbins will fit onto a panel.

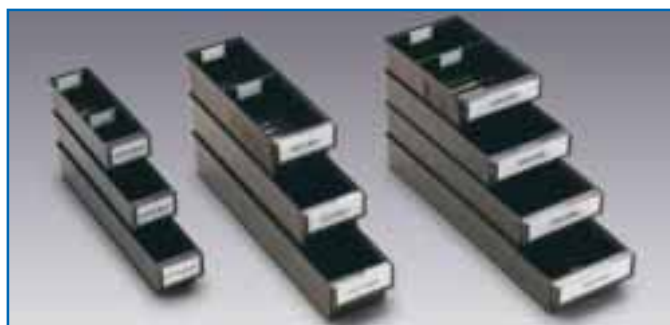

Contents not included

Available in 4 popular sizes

Safeguard your components and products from harmful ESD related problems with these useful Small Parts containers and cabinets.

These conductive storage bins are suitable for all standard shelves with a depth of 300-600mm. The corrugated base eases the picking of the smallest items. These bins stack securely and also include full width labels with protective shield (non ESD).

Accessories available: Cross dividers made from semi conductive polypropylene (PP).

## Stacking Bins

Stacking Bins can be used on louvred panel and rail systems. Their open front design gives great access to items. Corrugated bases ease the picking of the smallest of items.

Accessories Available: Cross dividers made from semi conductive epoxy powder coated steel

Large Stacking Bins are made to order. Please ask for details.

### Strong pressed steel construction

Epoxy powder coated for a smart, durable finish

Our strong steel Louvre Panels fit walls and other empty flat vertical surfaces such as desk sides, door and bench ends.

The fixing holes are at 100mm pitch so the panels can be interlinked for a continuous run with no wasteful or unsightly gaps.

### How many Linbins will fit on a panel?

Epoxy powder coated for a smart, durable finish

Every Louvre Panel has a Linbin Unit capacity (LBU). This is the total area available for Linbins.

Each Linbin also has an LBU value. By adding together the LBU values of all the Linbins required, you can then match this to the LBU capacity of the Louvre Panel.

Please note, each Linbin also has a size number; this is not the same as the LBU value!

#### For example:

On a Louvre Panel with an LBU capacity of 16 you could fit 8 Linbins with an LBU value of 1 (Linbin size numbers 2 or 3) and 2 Linbins with an LBU value of 4 (Linbin size number 6).

Total Linbin LBU value = 16 to match the Louvre Panel.

Screw on a Louvre Panel and you've got a valuable and versatile storage unit

## Transport your stores to point of use

- 'A' Frame double sided louvre panel trolleys with integral sheet steel deck storage area
- Fully welded steel frame construction with bolt-on louvre panels
- Tubular Push/Pull Handles
- Available in two heights (2 or 3 panels)

# Add Linbin storage anywhere Freestanding Louvre Panels

Choose the size to suit your space.  
It's easy to add extra panels...

Our Freestanding Louvre Panels assemble in minutes to provide a rock-steady home for a full set of Linbins, no matter how heavily loaded.

The double sided versions give you double the storage in the same floorspace while the single sided versions can be used close to a wall.

- Strongest freestanding louvre panels on the market
- Adjustable levelling feet for absolute stability
- Assemble in 5 minutes
- Build to any length – just bolt on Add Bay panels
- Modular flexibility – add extra panels at any time
- Single sided and double sides versions

### Safety tip

If you've got some heavy items, try and put them about waist height for safer picking.

### Uneven floors?

Don't worry, our heavy-duty feet easily adjust to compensate.

## Clever modular design means you can build as you need...

### Single-sided louvre panel units

From 400 x 94 x 80mm to 500 x 188 x 115mm

## Linbin Trays make better use of space

Linbin Trays let you store more in the same space. The 400mm deep trays can take up to six dividers, giving seven individual compartments – and the 500mm deep trays can take up to eight dividers, for nine compartments.

### All the qualities of Linbins and more

Linbin trays have index cards at the back and front plus a moulded end stop that keeps the tray at a convenient angle – all for more efficient picking. There's also the option of a wire end stop that positively prevents travel beyond the shelf edge – a useful safety feature if the shelf contents are heavy.

### Designed to fit automated systems

Linbin Trays are designed to fit automated carousel machines and robotic picking systems.

### Designed for shelving to hold tray at convenient angle

The moulded end stop holds the tray at a convenient angle for order picking. Optional wire end stops VESW1 and VESW2 prevent the tray moving beyond the shelf edge.

Linbin Tray shelving packs...  
page 49

## There's a size that's right for your stock

There are six sizes to fit Linspace shelving (or even non-Linspace shelving). All the popular packs below are supplied complete with free identification cards.
