

## SHELVING / PLASTIC MODULAR SHELVING

STORAGE PRODUCTS

## Plastic Modular Shelving

- ✓ Extremely versatile and easy to use, modular shelving can form virtually any layout
- ✓ Very easy to assemble, dismantle and clean
- Resistant to moisture and chemicals, corrosion resistant
- Lightweight and very strong
- Load bearing capacity 180kg per square metre length
- Standard shelving is static but castors can be fitted at extra cost
- Can withstand low temperatures – ideal for coldroom storage
- Available in 5 colours – cream, grey, red, blue and green
- Unless specified otherwise, cream will be supplied

## SPECIFICATION

Vertical space (between shelves)

All modules: 400mm

Horizontal space between uprights

1000mm wide	890mm clear space
1200mm wide	1090mm clear space
1500mm wide	2 x 675mm clear spaces
1800mm wide	2 x 825mm clear spaces
2000mm wide	2 x 925mm clear spaces

## SHELVING

STARTER BAY EXTENSION BAY

### Starters & Extensions

STORMOR shelving is available with three different upright variations to suit the application. The bays on the following pages are all supplied with 6 levels of 1000 mm wide shelves. Height and depth variations are given in the tables. Rapid delivery starter and extension bays are listed in the tables. Other heights, widths and depths are also available - contact us for details.

#### SHELF LOADINGS

Note bays with dimensions 2150H x 1000W x 600Dmm have a maximum shelf load capacity of 55kg. All other bays have a capacity of 70kg.

**70kg**  
PER SHELF

For our full range of accessories see pages 30 & 31

## STORMOR Mono

✓ Ideal for general purpose storage applications

- Maximum storage capacity in the available space
- Economic and fully adjustable
- Fully interchangeable with all other Stormor components
- Rear cladding or mesh cladding available

#### BioCote Protected

BioCote inhibits the growth of potentially lethal bacteria such as MRSA and E. Coli and reduces the risk of cross contamination making it ideal for hygiene sensitive area

Mesh cladding is available for small carton applications

## Stormor Shelving System - Dividers

### Full Height Compartment Dividers

#### Document Dividers

Slim profile divider ideal for paper and record storage. Ensures maximum use of shelf capacity. Easily relocated over the width of the shelf every 75mm.

#### General Purpose Dividers

Used to divide shelves horizontally into smaller storage compartments. Reinforced leading edge provides extra strength. Relocatable over the width of the shelf every 75mm.

### Partial Height Dividers

#### Top / bottom Dividers

150mm high divider which slots either on top or below the shelf to provide storage compartments or support for files and similar tall material.

#### Under-shelf Dividers

Divider simply clips in under open shelves to hold books, files etc upright. Divider can be repositioned exactly as required across the whole width of the shelf.

## Wire Mesh Decking

- ✓ Mesh decking will increase the versatility of pallet racking, great for cartons, irregular loads or individual components
- ✓ Superior finish - heavy gauge wire is welded first, then powder coated grey for maximum durability and rust-free life
  - Easy to install - drops into place, no fastening required
  - Ideal for storage above walk aisles or high bay rack systems
  - Will work with any top thickness of box or step down beam
    - Fire retardant & maintains integrity of overhead sprinkler coverage - a fire safety choice
    - Other sizes are available to order

## Mesh Pallet Rack Shelving

- ✓ Easy to position and relocate
- ✓ Custom built to your specific needs
  - Admit light, collect no dust
  - Enable efficient sprinkler operation
  - Allows storage of smaller items

MESH SHELF PANELS are tailor made to suit your own size and loading requirements. To assist with budget calculations, approximate 'guide prices' (based on a minimum quantity of 50 panels) are given below.

For a firm quotation please call us with details of your sizes and loading requirements

### GUIDE PRICES PER SQUARE METRE FOR MESH SHELVING

125kg UDL	250kg UDL	1000kg UDL
£47.00	£55.00	£73.00

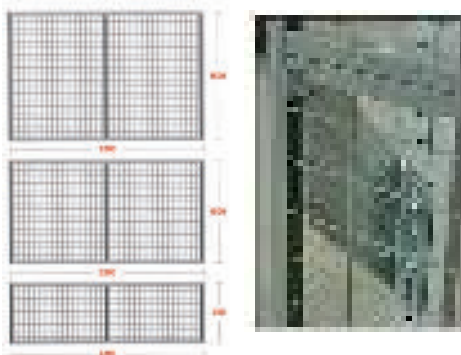

## Anti-Collapse (Musca) Safety System

- ✓ The pallet rack safety screen for essential protection

- Simple, strong and effective
- Eliminates overspill to rear of racking
  - Fully welded grid for maximum security
  - Easily fitted to new or existing racking
  - Durable epoxy powder coat RAL7037 finish

The ANTI-COLLAPSE SYSTEM is a simple and highly effective preventative measure, designed to combat the problems associated with spillage from the rear of racking.

Each panel is constructed on a 19mm square section steel tube, with mesh apertures of 25 x 25mm, 50 x 50mm, or 100 x 50mm to suit various applications. The system is self supporting on its own stand-off brackets which provide maximum strength and space for projecting items.
