

ACCESS STEPS

The Wave® Work Assist Vehicle

✓ There's no safer, faster or more cost effective way to help your workers transport, lift or move products, equipment or supplies than with the Wave®

- Numerous safety features built in as standard
- As used by many leading high street stores worldwide
- Increased productivity through speed & safety of picking
- Ideal for high level maintenance and cleaning
- Can your facility really operate without Wave®?

HOW ARE CURTAINS SUPPLIED?

- PVC strips are supplied cut to length, with hangers pre-assembled.
- Red marker strips are provided at each end, to act as guides for traffic
- Track is complete with necessary fixings, ready for face or under lintel fixing.
- Hook-on track is supplied for curtains up to 3.5m high
- Heavy duty aluminium track, suitable for fork trucks, is supplied for curtains over 3.5m high.
- The above track types may be specified on any size door without affecting the price - please state on order.
- Stainless steel track is supplied with low temperature curtains for freezer / food environments

WHY DIFFERENT OVERLAPS?

50% OVERLAP

- Allows easier passage for pedestrians
- Provides a moderate thermal barrier
- Is an excellent internal divider and is a lower cost option

100% OVERLAP

- Suits exposed external doorways
- Provides an excellent thermal barrier
- Withstands heavy traffic use

Medium duty hook-on track
(overlap is slightly reduced with this track)

Heavy duty aluminium track

PRICE £13.80

Bench Forks

Handy accessory acts as an extra pair of hands, making the job easier and quicker to complete

REF BP/310/2 PRICE £38.90

PACKAGING / STRAPPING

Steel Strapping Equipment

- ✓ The toughest strapping for the most demanding industrial jobs: heavy machinery, wooden cases and palletised loads
- ✓ Oscillated wound steel strapping gives more strap per reel, and therefore will suit large volume users
 - Choose from 13, 16 or 19mm wide strapping according to the breaking strain necessary
 - The tensioner is a universal tool for all widths, but a separate sealer will be required for each width of tape used
 - Our safety shears are designed to prevent whiplash injuries which can occur when highly tensioned strapping is cut. Shears will suit all widths of strapping
- The mobile trolley will also accommodate all widths of strapping up to 19mm, and has a generous seal holder box attached

OUR 6-PIECE STEEL STRAPPING KIT SAVES YOU OVER £60 AND GETS YOU OFF THE GROUND WITH ALL YOU NEED!

SPECIAL! 6-PIECE STRAPPING KIT

- Mobile stand
- Tensioner and 13mm sealer
- Safety shears
- Two 420m reels 13mm steel strapping
 - 1000 13mm metal seals
