Emergency Kits In Trolleys

Emergency Kits can be brought quickly to where a leak has occurred. They consist of snakes to contain leaks, with mats and cushions to absorb the leaking liquid. These are supplemented by personal protective goggles and gloves. You have a choice of 3 versions:

- Type DNO** - If you want to absorb oil or petrol only and not water
- Type DNU** - For universal use to absorb oil, water and other liquids
- Type DNC** - For universal use and is resistant to acids, alkalis and other chemicals

Contents

10 cushions	28 x 20 x 4cm
4 snakes	120 x 7.5cm
4 snakes	180 x 7.5cm
20 mats	40 x 50cm
3 pair of protection gloves	
5 waste bags

For the storage of potential water pollutants and flammable liquids where stringent safety regulations apply. Environmental protection is also demanded when dispensing, refilling or transportation of such substances.

Specifically designed for decanting and fluid transfer areas where the risk of spillage is higher than normal. Used as a modular system they can provide protection for the complete working floor area if necessary.

This range of decking is available with a point load of 450kg, or 2000kg to accommodate fork lift truck traffic.

Ensure your storage area or workshop is properly ventilated at all times

IBC Stations & Pallets

114-596 Twin IBC pallet, painted steel. For the storage of two IBCs or up to 8 x 205 litre drums on pallets.

i Environmental Regulations demand that potential water pollutants are stored and dispensed safely. Designed to meet the regulations these stations and pallets are ideal for use with 1000 litre IBC containers.

IBC Stations & Pallets

- Polyethylene sumps have a high resistance to acids and alkalis
- Welded steel sumps suit oil-based products
- Designed for transport by forklift
- Removable polyethylene or galvanised grids for easy cleaning
- Dispensing platform option provides gentle slope for safe emptying of containers

**RAPID
DELIVERY**
