Tubular Cycle Racks

FINISH & INSTALLATION

Tubular racks shown on this page are finished in exterior grade powder coat. Light grey is supplied as standard but racks are also available in green or blue.

All racks are pre-drilled for floor fixing (fixings not included).

It is recommended that in environments such as coastal areas where corrosion is a factor, a galvanised finish is used - please contact us for a quotation.

HOW ARE CURTAINS SUPPLIED?

- PVC strips are supplied cut to length, with hangers pre-assembled.
- Red marker strips are provided at each end, to act as guides for traffic
- Track is complete with necessary fixings, ready for face or under lintel fixing.
- Hook-on track is supplied for curtains up to 3.5m high
- Heavy duty aluminium track, suitable for fork trucks, is supplied for curtains over 3.5m high.
- The above track types may be specified on any size door without affecting the price - please state on order.
- Stainless steel track is supplied with low temperature curtains for freezer / food environments

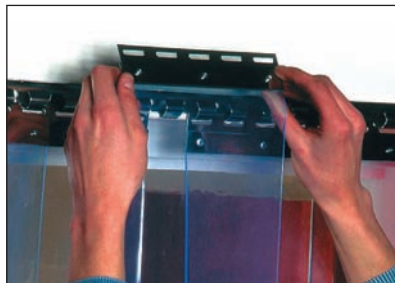

WHY DIFFERENT OVERLAPS?

50% OVERLAP

- Allows easier passage for pedestrians
- Provides a moderate thermal barrier
- Is an excellent internal divider and is a lower cost option

100% OVERLAP

- Suits exposed external doorways
- Provides an excellent thermal barrier
- Withstands heavy traffic use

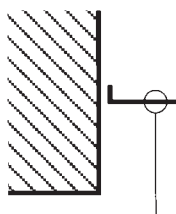

Medium duty hook-on track
(overlap is slightly reduced with this track)

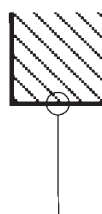

Heavy duty aluminium track

WHERE CAN THE DOOR HANG?

FACE FIXING
(add FF to order code)

UNDER LINTEL FIXING
(add ULF to order code)

Freestanding Walkways

✓ Covered walkway provides pedestrians with protection from the weather

✓ A perfect solution to providing a link between separate buildings

- Freestanding covered walkways in modular 3m lengths
- Stylish curved roof comes as standard, made from UV resistant opaque polycarbonate mounted on steel frame
- Optional side panels made from tough clear Perspex for improved weather protection. Can be mounted on either side or both.
 - All metal parts powder coated for weather resistance
- Delivered in knock-down format for easy handling to site
 - Framework available in a choice of three colours
 - Ideal for use within schools, colleges, universities, hospitals and office buildings

Wall Mounted Walkways

✓ Simple & effective modular walkway that fastens to the side of a building

- Modular design in 3m lengths
- Stylish curved roof comes as standard, made from UV resistant opaque polycarbonate mounted on steel frame
 - Optional side panels made from tough clear Perspex for improved weather protection
 - All metal parts powder coated for weather resistance
- Delivered in knock-down format for easy handling to site
 - Framework available in a choice of three colours

- ✓ Slip resistant and fatigue reducing,
a boost to productivity

VYNAGRIP is comfortable to stand on and its deeply etched slip resistant surface reduces accidents, even when used over rough or problem floors. Manufactured from grid-welded PVC it is extremely hardwearing and it allows debris, dirt and liquid spillage to fall through or drain away.

- Reduces fatigue, which boosts productivity
- Hardwearing and maintenance free
- Hygienic, oil resistant and simple to clean
- Simple to join or cut to shape

VYNAGRIP modules are also available in one standard size, 1.5 x 1m, with flexible PVC edging welded to three sides. This enables a flush fit against machinery, service counters or any work area.

- ✓ Hardwearing and slip-resistant

HERONAIR is made from extremely hardwearing flexible PVC – with tubular top surface and underbars to create maximum cushion comfort underfoot. HERONAIR is a highly slip-resistant, insulating and economical alternative to conventional duckboards, and can be laid on any type of floor with no fixing required.

- Contours to uneven floor surfaces
- Impervious to most acids, oils and chemicals
- Easily cut to shape or size
- Cushioned surface reduces fatigue
- Liquid spills drain away
- Supplied only in black

- ✓ Helps prevent breakage and spillage problems

When you're busy, the last thing you want to have to do is to stop to mop up a spillage or to replace a broken tool or component. FLOORLINE'S cushioned slip-resistant PVC grid not only reduces breakages, but it raises people slightly above floor level, so any spillage will drain through where it can be cleaned later.

- Robust, tubular cushioned flexible grid structure
- Hygienic and hardwearing
- One-piece, lightweight format makes it easy to roll up for cleaning

- ✓ For aisles, walkways and heavy traffic corridors

Flexitred is a smart and practical loose-lay flooring product which provides an instant solution to problem floors in heavy traffic areas within factories, offices and other commercial premises. Constructed from a continuous solid plasticised PVC sheet, it is smart, slip-resistant and comfortable to walk on.

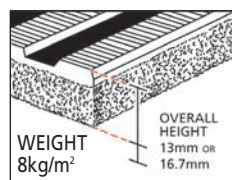

- Brings slip resistance to aisles, walkways and heavy traffic corridors
- Tough, smart and hardwearing
- Provides excellent electrical insulation
- Reduces noise on steel walkways and platforms
- Ideal worktop covering and machinery surround
- Loose-lay in most applications

- ✓ Fused construction never de-laminates

ZEDTRED is a combination of tried and tested hardwearing FLEXITRED with a fused backing of high molecular density foam. ZEDTRED is truly the ultimate heavy duty anti-fatigue mat.

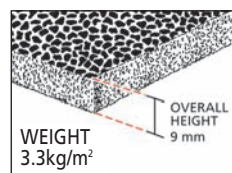

- Channelled slip-resistant surface dissipates light spillages
- Scuff resistant wear layer
- Hardwearing, maintenance free

- ✓ Long lasting and does not deaden

ZEDLAND's patented high molecular density foam provides continued resilience, which induces natural muscle flexing and thus reduces standing fatigue. This high quality foam has wear properties that excel other products. The "bounce" properties are equally long lasting providing a standing surface that will not deaden. Zed Land is available in a range of mat sizes and roll lengths to suit all areas.

- Excellent fatigue reduction
- Patented foam construction
- ASTM D4060 - minimal wear
