Flammable Liquids Storage

All cabinets meet the requirements of the Highly Flammable and Liquefied Petroleum Gases Regulations 1972 (Section 5 Part D), The Health and Safety Executive Guide HS(G)51 1990 and the Factory Inspectorate Certificate of Approval No 1 Parts 3 and 4.

The maximum volume of any flammable liquid with a flashpoint below 32°C that may be stored in a flame resistant cabinet within a workroom is 50 litres (regardless of the total capacity of the storage cabinet).
